r.zbiec.piekarska@gmail.com

ABOUT ME I am a meticulous and diligent quick learner, ready for hard work and developing professional skills in IT areas. My inner driving force is continuous development. I like to learn new things and share knowledge and experience gained so far. I truly believe that team working is the key to success. Thanks to participating in the workshops and courses on the basics of programming (Javascript, CSS, HTML), I gained confidence that this is the direction I would like to develop. I like new challenges and gaining new skills gives me personal satisfaction.
